

PORT- 1

Malaga's harbour wasn't always how we know it now. Even the ancient romans where attracted to the excelent climate and location of this city. Throughout the years, this harbour was dedicated exclusively to commercial and trading purposes, right until 21st century.

Today, the port 1 has become a place where, in addition to being a simply port, it is also destined to the global tourism, the trade and leisure; thanks to all the facilities that have shops, restaurants, and the proximity to other emblematic places of Malaga.
